Mr. Mike Spear
Regional Director
U.S. Fish and Wildlife Service
P.O. Box 1306
Albuquerque, New Mexico 87103

Dear Mr. Spear

As you recall at the last meeting of the Sonoran Pronghorn Antelope Recovery Team it was agreed that the team would meet again on June 12, 1986. At the October 3, 1985 Recovery Team meeting it was thought that an additional meeting would be conducted to review and discuss the final report of the current Sonoran Pronghorn Antelope study as well as to discuss general goals and future recommendations. It is my recommendation to you and team members that the proposed June 12, 1986 meeting be postponed until such time the final Sonoran Pronghorn Antelope study report is available and at such time you deem advisable for review or disclosure to the Recovery Team. At this time not only could the team review the study report but also discuss any additional general matters.

RD
Propose response

As always the Sonoran Pronghorn Recovery Team remains at your service and are willing to meet on any issue at your request. I look forward to future meetings at the Recovery Team and please feel free to contact me at any time I can be of assistance.

Sincerely,

Richard Remington
